February 2025

Please find below the voting rights exercised in compliance with the procedure “Protocol of Autonomy for the management of conflicts of interest of Eurizon Capital S.A.” during 2024.

PREMISES

As set forth in Directive 2010/43/EU (which describes the methods for implementing Directive 2009/65/EC, as regards organizational requirements, conflicts of interests, conduct of business, risk management and content of agreements entered into between a depositary and a management company) and related implementing regulations (CSSF Regulation 10-4 of December 22nd, 2010, as amended), Eurizon Capital S.A. (hereinafter “Company”) has adopted a set of procedures and measures aimed at:

- monitor corporate events connected with the financial instruments held in managed portfolios, where required by the characteristics of the financial instruments that incorporate rights to be exercised;
- assess the methods and times for any possible exercise of participating and voting rights, based on a cost-benefit analysis that also considers the objectives and investment policy of each managed portfolio;
- prevent or manage any conflict-of-interest situations that may arise from exercising of voting rights on behalf of managed assets.

In this context, the Company endorses (i) the "Stewardship Code" promoted by the European Fund and Asset Management Association (EFAMA) in order to encourage, at a European level, the development of good corporate governance practices and (ii) the "Italian Stewardship Principles" for the exercise of administrative and voting rights in listed companies and the related Best Practice Recommendations defined by Assogestioni.

Eurizon Capital S.A. participates, on behalf of the asset under management, in the shareholders' meetings of selected companies with shares listed on international markets, taking into account the usefulness of participation in the interests of the managed assets and the possibility to impact decisions relating to the shares with voting rights held.

In particular, based on a cost/benefit analysis that takes into account the investment objectives and policies of the managed products, the Company has adopted preliminary and operating processes that differ for the exercise of voting rights, depending on whether the decision concerns resolutions of shareholders' meetings:

- considered more significant, based on one or more of the following criteria;
- for which the Company uses electronic voting (*proxy voting*).

Based on the above, the Company has defined the following criteria to identify meetings of the most significant shareholders:

- significant capital holdings, identified from time to time through company procedures;
- the presence of situations in relation to which, in the interests of managed assets, it intends to (i) report on situations of particular interest, in defence of or to support the interests of minority shareholders; or (ii) support decisions relating to environmental, social and good corporate governance practices;
- the appointment of statutory auditors or board directors of companies listed in Italy based on “*voto di lista*”, representing minority shareholders;
- extraordinary transactions considered significant for the interest of managed assets, in order to support or oppose a proposed operation.

- **APPOINTMENT OF MEMBERS OF THE BOARD OF DIRECTORS AND BOARD OF STATUTORY AUDITORS, THROUGH THE SLATE VOTING MECHANISM, REPRESENTING MINORITY SHAREHOLDERS**

Eurizon Capital S.A. participated at 40⁵ Shareholder Meetings at companies listed on the Italian Stock Exchange with the sole aim of contributing to the election of members of the Board of Directors and Boards of Statutory Auditors through the slate voting mechanism representing minority shareholders.

⁵ Compliant to the 'Strategy for the exercise of participation and voting rights inherent to the financial instruments pertaining to the managed assets', for 8 shareholders' meetings, Eurizon contributed to present the lists of minority candidates defined by the Assogestioni Committee of Managers for the renewal of corporate bodies through the '*voto di lista*' mechanism. The Company supported the minority slates at the shareholders meetings and did not exercise its voting rights on the other items on the agenda, as a preventive measure to neutralise the conflict of interest arising from the presence in the corporate bodies in office of representatives who have relations with companies of the Intesa Sanpaolo S.p.A. Group. For one issuer, Eurizon contributed to the submission of the slate of candidates, representing minority shareholders, for the renewal of corporate bodies in coordination with Assogestioni. While for two issuers, Eurizon did not participate in the submission of the slate of candidates but exercised its vote at the shareholders' meeting by supporting the minority slate.

2. PARTICIPATION TO THE SHAREHOLDING MEETINGS FOR WHICH THE COMPANY USES ELECTRONIC VOTING

If considered the most efficient procedure in the interest of managed assets and if the above qualitative/quantitative criteria do not apply, the Company also exercises voting rights by electronic voting, if contemplated by issuers. To this end, the Company uses an IT platform to streamline the process of exercising voting rights, with particular reference to foreign issuers. In these situations, voting instructions are defined based on specific guidelines approved by the Board of Directors and proposals from the Conducting Officers in the context of the Management Committee, for this purpose the Management Committee takes into account also the proposals of the ESG Committee of the parent Eurizon Capital SGR.
